

How To Choose A Qualified Landscape Company

Hiring a professional landscaper is a very important investment for your home. Some landscape installations can add as much as 30% to the value of your home, although some installations, if not done properly, can decrease the home's value and cost you more money in repairs or replacements. The Columbus Landscape Association is an organization that takes landscaping seriously, and we have over 70 members who are professional, licensed, and qualified to complete your next landscaping project. Because of our commitment to professionalism in the landscape industry, we have compiled a list of questions you should ask when hiring a landscaper. Asking these questions will protect you and ensure you are getting professional installation with the quality you deserve:

- ☞ How many years have you been in the business?
- ☞ Do you have degreed Landscape Architects or Landscape Horticulturalists that create your landscape designs?
- ☞ Is your field staff state or nationally certified?
- ☞ Are you insured and/or bonded?
- ☞ Do you offer a written guarantee?
- ☞ Do you have a website? If so, what is the web address?
- ☞ Are you a member of any landscape associations?
- ☞ Does your business operate under a federal Tax ID number?
- ☞ Can you provide a list of referrals?

If the company you're considering provides questionable responses, think twice before hiring them! To find professional landscapers who can positively answer all of these questions, visit www.columbuslandscape.org. You can use our online directory to find a qualified company to work in your yard! For more information, please call 888-850-5951.
